

## **Downtown Construction Activities**

***Proposed work activities for the week of June 13<sup>th</sup>, 2021***

- The contractor at the Generals Bridge project will continue grading the roadway subbase in preparation for the upcoming pavement operations within the new bridge. In addition, the contractor will continue placing rebar cages along Thomas Burgin Parkway at the future bridge connection along the MBTA tracks.
- At the McConville Way project the contractor will continue construction of the streetscape aside the new roadway. The streetscape work includes the continued installation of trees, plantings, brick pavers, concrete sidewalks, catenary lights (alleyway) and roadway signage. At the future pocket parks, the contractor will continue sealing paver joints and sweeping in polymetric sand between brick pavers. At the entrance to Cliveden Place garage/Messina Lot between the pocket parks a new concrete mud mat/vehicular paver will be installed for the future crosswalk. In addition, the contractor will finish paving Granite St and Cliveden St. There will be temporary traffic detours during the time for these paving operations.
- At the old 100 Parking Way site the contractor will continue preparing the parking lot subbase, set new parking lighting and raise existing casting to grade. This area will be paved in the following weeks. The temporary fencing remains in place around this area during construction. There remains no parking along McConville Way and Parkingway.

(The photo on the above left shows the new sidewalk along McConville Way and the preparation of the future parking lot in the foreground and the above right photo shows the contractor removing and disposing of the existing asphalt on Parkingway.)
